

Resyin Virzasa Hendriyanti
Frontend Developer

resyin9b@gmail.com | [Linkedin](#) | [GitHub](#) | [Portofolio](#) | Indonesia

Professional Summary

Frontend Developer specializing in React, TypeScript, and Tailwind CSS with a passion for building responsive and user-friendly web applications. Experienced in developing real-world projects including analytics dashboards, business landing pages, and POS interfaces using modern frontend technologies. Strong understanding of component-based architecture, responsive design, and clean code practices. Eager to contribute to a collaborative team while continuously improving technical skills.

Education

Hasyim Asy'ari University

August, 2026

Bachelor's Degree in Informatics Engineering. GPA [3.87]

Project & Experience

WMJ Restarurant Landing Page

July, 2026

React, TypeScript, Tailwind CSS

- Developed a responsive landing page for a local restaurant.
- Built menu, gallery, testimonials, and contact sections.
- Integrated WhatsApp ordering functionality.
- Focused on accessibility and responsive design.

Live Demo: <https://wmj-landing-pages.vercel.app/>

Ruang Guru Education Web

September-December 2024

React, Tailwind CSS, Golang, REST API, AI Integration

- Developed a responsive web application integrating AI-powered features as part of the Ruangguru CAMP Fullstack Golang & AI Independent Study program.
- Built reusable frontend components using React and implemented responsive user interfaces with Tailwind CSS.
- Integrated frontend with backend REST API to manage data exchange between client and server.
- Collaborated in an Agile based team environment using Git and Github for version control.
- Applied clean code principles and component-based architecture to improve code maintainability.
- Presented the final project and demonstrated the implementation of AI features during the program.
